**Starting at \$595.00**

### **Quality**

Every album is hand-made to your specification with the finest materials and craftsmanship. The pages are true flush mount, laying completely flat and extending across the entire page with approximately 1/8" space in the spine between the pages. Each page is printed on state-of-the-art Noritsu silver halide printers using Kodak's Endura paper and top-coated to prevent fingerprinting. Choose from our standard Large 11"x 8.5" or our brand new Extra Large 14" x 11" size. You can create your pages with any of our 240 page layouts for a look all of your own. Flush Mount albums can be made with anywhere from 12 to 90 pages.

### **Colors**

Flush Mount Albums are available in 9 genuine leather cover colors.

- Glove Black
- Glove White
- Glove Red
- Glove Brown
- Napa Black
- Napa Pear
- Glove Coffee
- Napa Raspberry
- Distressed Brown

### **Foil Stamping**

You can also add cover stamping to any Flush Mount album. Two lines of text can be added at the lower right hand corner of the album cover in black, gold, silver or an emboss with no foil.

### **Page Edge Gilding**

Page edge gilding adds a special touch to thick flush mount pages. Select from black, gold or silver to put the finishing touch on your wedding album.
